Cyber Platform SDKs

- Cloud Distributor SDK – automate key cloud distributor workflows
- Service SDK – enable 3rd-party services through the platform
- Workload SDK – protect new types of workloads
- RMM/PSA SDK – simplify integration with RMMs and PSAs

Cyber Scripting

- Pre-built automaton scripts
- Custom dashboards and reports
- Perform mass management jobs
- Automate handling of alerts
- Perform automatic scheduled jobs

More integrations

- 10+ new RMM and PSA integrations
- New ISV services such as OmniVoice, Greathorn, etc
- Protection of new workloads such as PostgreSQL, MariaDB, Open-Xchange, WordPress
